

## **Surgery**

Written by WVSU Medical Center

---

**Chair: Giovanni A. de los Reyes, MD, FPCS, FPSGS**

### **Vision:**

The Department of Surgery is a community of professional surgeons proud of its history and traditions, imbued with the highest sense of moral, ethical and social responsibility dedicated to: excellence in patient care; surgical education and training; and research and development.

### **Mission:**

Primarily as Clinicians or Medical Practitioners providing direct patient care to individuals with surgical disorders in different settings such as the community, the hospital, school and different institutions,

As Researchers, involved in the study of current and relevant issues related to the practice of Medicine in general,

As Medical Educators, involved in teaching and training of students in Medicine and other health professions, and

As Administrators, involved in managing and organizing the activities of institutions, organizations or departments of the hospital.
